

Reopening Webpages

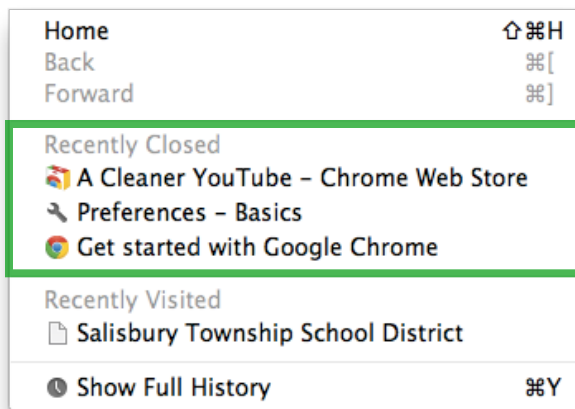

If you're browsing the web and you find that you've accidentally closed a window or tab and lost your place, there's an easy way to get back to where you were.

First, reopen the web browser you were using and click History in the menu bar.

In Safari, choose Reopen Last Closed Window or Reopen All Windows from Last Session.

In Chrome, click on the page you wish to reopen under Recently Closed.

In Firefox, click Restore Previous Session to restore all windows and tabs, or choose specific sites under Recently Closed Tabs or Recently Closed Windows.
